SUMMARY

Data & Business Intelligence Analyst with 4.5+ years of experience across healthcare, finance, and operations, using SQL, Python, SAS, Power BI, and Tableau. Skilled in translating business requirements into actionable reporting, improving data quality, and automating workflows to support operational and financial decisions.

PROFESSIONAL EXPERIENCE

Healthcare Data Analyst (Business Intelligence & Reporting) | *UnitedHealth Group*

May 2025 – Present

- Delivered 6 production Power BI dashboards used by 15+ clinical and operations stakeholders in recurring business reviews by developing KPI measures and interactive visualizations to track utilization, cost, and reimbursement performance.
- Reduced recurring reporting turnaround from 3 days to under 1 day by automating 7 workflows with Python scripts and scheduled pipelines to extract, transform, and refresh Tableau reports.
- Supported monthly reimbursement and coverage assessments by analyzing 12M+ healthcare claims and eligibility records in Snowflake using SAS and SQL to identify utilization and cost trends.
- Resolved 19 claims data inconsistencies before internal and external reporting submissions by validating ICD/CPT codes and reconciling individual records against reference tables.
- Provided enrollment and utilization insights for quarterly performance and cost reviews across 8 healthcare businesses by conducting time-series and seasonality analysis on AWS S3 datasets.

Data & Analytics Engineer | *Infosys*

Jan 2022 – Aug 2023

- Consolidated 4 legacy reports into a unified Power BI solution serving 120+ users, enabling KPI tracking, trend comparisons, and drill-down analysis for monthly business reviews through reusable star-schema semantic models and DAX measures.
- Defined 20+ KPIs and dashboard acceptance criteria by conducting 10 requirements-gathering sessions with 12 stakeholders, identifying 6 reporting gaps and translating business needs into reporting specifications.
- Resolved 6 reconciliation issues in transaction reports by refining SQL joins and ETL mappings across Oracle and SQL Server, improving consistency between reported totals and source records.
- Reduced support requests by 50% by standardizing data dictionaries, metric definitions, and pipeline user manuals, streamlining analyst onboarding and improving cross-team collaboration.

Associate Data Analyst (Financial Analysis) | *Genpact*

Jan 2020 – Dec 2021

- Reduced operating costs by 8% by analyzing pricing, cost, and revenue data using Excel PivotTables and lookup functions, identifying cost drivers, and presenting actionable recommendations to business owners.

PROJECTS

OR Scheduling Reliability & Cost Exposure | Power BI, SQL, Python, Microsoft Fabric, PySpark | [GitHub repo](#)

- Built an end-to-end ELT pipeline in Microsoft Fabric using PySpark and Spark SQL, transforming 1.9M+ raw records into a 48,118-case, 418-procedure star schema and Power BI/DAX semantic model that quantified a 54.1-minute mean absolute error and \$15.8M–\$27.1M in estimated annual cost exposure.

Medicare-Claims-Processing-Analytics | PostgreSQL, SQL, Python | [GitHub repo](#)

- Analyzed 6,627 Medicare claims across 3 approval policies (manual, rules-based, and checks-plus-score) using SQL, PostgreSQL, and Python; identified 100 incorrect approvals and generated \$73,194 in net savings compared with manual review.

SKILLS & CERTIFICATION

- **BI & Visualization:** Power BI, DAX, Power Query, Tableau, Advanced Excel, KPI Reporting, Semantic Models, Star Schema
- **SQL & Programming:** SQL (Joins, CTEs, Window Functions, Aggregations), Python, Git
- **Databases & Cloud:** Snowflake, Microsoft Fabric, BigQuery, SQL Server, PostgreSQL, Oracle, MySQL, AWS S3
- **Data Management:** Data Validation, Data Quality, Data Reconciliation, Data Cleaning, Requirements Gathering, ETL/ELT
- **Data Analysis:** SAS, Statistical Analysis, Exploratory Data Analysis, Trend Analysis, Time-Series Analysis
- **Certification:** Microsoft Certified Fabric Analytics Engineer Associate (DP-600)

EDUCATION

Master of Science in Information Systems | Saint Louis University, St. Louis, MO

Aug 2023 – May 2025
